**FRONT END DEVELOPMENT** | ReactJS • Redux • JavaScript • Bootstrap • Tailwind • HTML • CSS • Jest • Mocha

**MISCELLANEOUS** | Git • Github • Agile • SCRUM Master • TDD • Magento

**SOFT SKILLS** | Team player • Bias for action • Deliver results • Growth mindset

## EXPERIENCE

**OpenHome** | Python, AI, ChatGPT, Whisper, PDM, Conda, Git  
Back End Engineer | Jan 2024 - April 2024

- Engaged in a grant-funded project focused on developing an AI-driven application using Python, integrating ChatGPT and Whisper for advanced user interactions.

- Utilized PDM and Conda for robust environment and dependency management, ensuring high standards of software reliability and maintainability.

- Project was shown to over 100 investors for OpenHome to gain more funding

**The History Store** | Python, Flask, ReactJS, Postgres, SQLAlchemy, JWT, Magento

Full-stack Developer | June 2023 - Present

- Solo developer behind a Magento 2 web application ([M2 InstaCount](#)) that significantly enhanced inventory management, approximately increasing end-of-year and periodic inventory efficiency by 30-35%.

- Designed and implemented a receiving tool that substantially streamlined the process of accepting and verifying supplier shipments, reducing required time by approximately 50%.

**Multiple Organizations** | eBay, Magento, Amazon, Sales, E-commerce  
Sales and E-commerce | June 2018 - December 2023

- Created and grew a retail arbitrage business to over \$100k in revenue

- Helped manage a team of workers to liquidate a Bay Area startup. Resulted in over \$300k of equipment and supplies sales.
